**Subject:** Eisenbarth Sampling after Significant Rainfall Event

Good afternoon Mr. Justice,

This email is being sent as notification of our intent to sample for purposes of Paragraph 15.a.ii. The sampling event is currently scheduled to take place tomorrow on July 7, 2015. As previously mentioned in an email from Steve Tink on June 17, we are providing as much notification lead time as possible.

The forecast for the Eisenbarth pad tomorrow is 100% rain. Moody and Associates, Inc. will have three teams on site to collect samples.

Please let me know if you have any questions.
